SOBOLEV SPACES  
GIOVANNI LEONI  
PDF

In mathematics, a Sobolev space is a vector space of functions equipped with a norm that is a combination of  $L_p$ -norms of the function together with its derivatives up to a given order.

# Download Ebook A First

The derivatives are understood in a suitable weak sense to make the space complete, i.e. a Banach space. Intuitively, a Sobolev space is a space of functions possessing sufficiently many derivatives for some application domain, such as
