"The text is suitable for a typical introductory algebra course, and was developed to be used flexibly. While the breadth of topics may go beyond what an instructor would cover, the modular approach and the richness of content ensures that the book meets the needs of a variety of programs."--Page 1.

Like The Group, Mary McCarthy's classic tale about coming of age in New York, Joanna Smith Rakoff 's richly drawn and immensely satisfying first novel details the lives of a group of Oberlin graduates whose ambitions and friendships threaten to unravel as they chase their dreams, shed their youth, and build their lives in Brooklyn during the late 1990s and the turn of the twenty-first century. There's Lil, a would-be scholar whose marriage to an egotistical writer initially brings the group back together (and ultimately drives it apart); Beth, who struggles to let go of her old beau Dave, a onetime piano prodigy trapped by his own insecurity; Emily, an actor perpetually on the verge of success -- and starvation -- who grapples with her jealousy of Tal, whose acting career has taken off. At the center of their orbit is wry, charismatic Sadie Peregrine, who coolly observes her friends' mistakes but can't quite manage to avoid making her own. As they begin their careers, marry, and have children, they must navigate the shifting dynamics of their friendships and of the world around them. Set against the backdrop of the vast economic and political changes of the era -- from the decadent age of dot-com millionaires to the sobering post-September 2001 landscape -- Smith Rakoff's deeply affecting characters and incisive social commentary are reminiscent of the great Victorian novels. This brilliant and ambitious debut captures a generation and heralds the arrival of a bold and important new writer.

cindy Bilbao's spectacular photographs and helpful guidance will transform your everyday visit to the beach into a passionate treasure hunt. You'll learn where to go, when to go, what to look for and more. Sea glass has a particular magic. These are simply shards of old glass that have been shaped and polished by the sand and the sea. Sea glass can be found in a wide array of colors and can be simply collected or can be made into gorgeous jewelry. With a greatly enhanced ability to find these gems, THE OFFICIAL SEA GLASS SEARCHER'S GUIDE will open up a new world. And, from the comfort of your armchair you'll be able to envision those discoveries by thumbing through Cindy Bilbao's photos that capture the essence of what is so compelling about sea glass.

Solution-focused systemic structural constellations for therapy and organisational change. Constellation work is an effective way of externalising and working with problems in family and organisational life. Solution focused practice is the art of building solutions as simply as possible. The author combines the two and sets out a radical yet gentle form of practice. The pioneering work of the author and her partner Matthias Varga von Kibed is highly influential in Europe and appears here in English for the first time.
