communication, and resource management and promotes quality and cost-effective interventions and outcomes.

Definition and Philosophy of Case Management | Commission ...

Case management solutions are designed to manage all this to help drive more successful, optimized outcomes – even as they also attend to and secure the individual bits of material contained therein. An Enterprise Content Management (ECM) or Document Management (DM) system may also be used to manage case information. The information will need to be grouped together and made accessible in a suitably controlled way to all who are involved in the case.
