This Value Pack consists of *Physics for Scientists & Engineers, Vol. 1 (Chapters 1-20)*, 4/e by Douglas C. Giancoli (ISBN 9780132273589) and *MasteringPhysics™ Student Access Kit for Physics for Scientists and Engineers*, 4/e (ISBN 9780131992269)

Building on the research-proven instructional techniques introduced in Knight's *Physics for Scientists and Engineers*, the most widely adopted new physics text in more than 30 years, *College Physics: A Strategic Approach* set a new standard for algebra-based introductory physics--gaining widespread critical acclaim from professors and students alike. For the Second Edition, Randy Knight, Brian Jones, and Stuart Field continue to apply the best results from educational research and refine and tailor them for this course and the particular needs of its students. New pedagogical features (Chapter Previews, Integrated Examples, and Part Summary problems) and fine-tuned and streamlined content take the hallmarks of the First Edition--exceptionally effective conceptual explanation and problem-solving instruction--to a new level. More than any other book, *College Physics* leads you to proficient and long-lasting problem-solving

skills, a deeper and better-connected understanding of the concepts, and a broader picture of the relevance of physics to your chosen career and the world around you. College Physics Technology Update, Second Edition, is accompanied by a significantly more robust MasteringPhysics(R)--the most advanced, educationally effective, and widely used online physics tutorial and homework system in the world. Additionally, more than 100 QR codes appear throughout the textbook, enabling you to use your smartphone or tablet to instantly watch interactive videos about relevant demonstrations or problem-solving strategies. 0321815114 / 9780321815118 College Physics: A Strategic Approach Technology Update with MasteringPhysics(R) Package consists of: 0321636600 / 9780321636607 MasteringPhysics(TM) with Pearson eText Student Access Kit for College Physics: A Strategic Approach 0321815408 / 9780321815408 College Physics: A Strategic Approach Technology Update

This edition features the exact same content as the traditional book in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value for your students--this format costs 35% less than a new textbook. As the most widely adopted new physics book in more than 50 years, Knight's Physics for Scientists and Engineers was published to widespread critical acclaim from professors and

students. In the Third Edition, Knight builds on the research-proven instructional techniques he introduced in the first and second editions, as well as national data of student performance, to take student learning even further. Knight's unparalleled insight into student learning difficulties, and his impeccably skillful crafting of text and figures at every level—from macro to micro—to address these difficulties, results in a uniquely effective and accessible book, leading students to a deeper and better-connected understanding of the concepts and more proficient problem-solving skills. For the Third Edition, Knight continues to apply the best results from educational research, and to refine and tailor them for this course and its students. New pedagogical features (Chapter Previews, Challenge Examples, and Data-based Examples), end-of-chapter problem sets enhanced through analysis of national student metadata, and fine-tuned and streamlined content take the hallmarks of the previous editions—exceptionally effective conceptual explanation and problem-solving instruction—to a new level. This package contains: Books a la Carte for Physics for Scientists and Engineers with Modern Physics, Third Edition

Dynamic Study Modules focused on fundamental math and physics concepts help students better prepare before class while new Prelecture Videos address common misconceptions students have when learning physics for the first time while reinforcing class preparation. Now, more than 200 new QR codes appear throughout the textbook, enabling students to use their smartphone or tablet to instantly watch interactive videos about relevant demonstrations, new Dynamic Figure Videos, problem-solving strategies, and solutions explained by the authors. Newly Enhanced End-of-Chapter Questions offer students instructional support right when they need it, including wrong-answer specific feedback, links to the eText, and math remediation when completing homework assignments.

These solutions manuals contain detailed solutions to more than half of the odd-numbered end-of-chapter problems from the textbook. Following the problem-solving strategy presented in the text, thorough solutions are provided to carefully illustrate both the qualitative and quantitative steps in the problem-solving process.

"An Enquiry Concerning Human Understanding" is a book by David Hume created as a revision of an earlier work, Hume's "A Treatise of Human Nature". The argument of the Enquiry proceeds by a series of incremental steps, separated into chapters which logically succeed one
