Organization, London: Sage. 128 pages. Popular introduction. Part one covers the basics of action research including the action research cycle, the role of the 'insider' action researcher and the complexities of undertaking action research within your own organisation.

[What is action research and how do we do it? – infed.org:](#)

Plan when and where you will do your chosen action. Be consistent: choose a time and place that you encounter every day of the week. Every time you encounter that time and place, do the action. It will get easier with time, and within 10 weeks you should find you are doing it automatically without even having to think about it.

Module 6: The Importance of Research Study Implications. The purpose of research is to inform action. Thus, your study should seek to contextualize its findings within the larger body of research. Research must always be of high quality in order to produce knowledge that is applicable outside of the research setting.

## The Importance of Research - Research Methodology Course

Emerging evidence is tracing the pathways of the mind-body interaction. For example, as seen with the college students, chronic feelings of loneliness can help to predict health status -- perhaps because lonely people have more psychological stress or experience it more intensely and that stress in turn tamps down immunity.
