In Economic Facts and Fallacies, Thomas Sowell exposes some of the most popular fallacies about economic issues in a lively manner that does not require any prior knowledge of economics. These fallacies include many beliefs widely disseminated in the media and by politicians, such as fallacies about urban problems, income differences, male-female economic differences, as well as economic fallacies about academia, about race, and about Third World countries.

Economic Facts and Fallacies goes into more detail about, as the title suggests, facts and fallacies (mostly fallacies) in six major areas of our lives - urban life and planning, gender issues, academia, income, racial issues, and the third world. Not an exhaustive list of areas, but let's say wide enough.
