Engineering Design: Dieter, George, Schmidt, Linda ...
Dieter Rams is a retired German industrial designer and academic. His consumer products company Braun introduced the world to " functionalist " industrial design. In functionalist design the purpose intended for the object (for instance a razors purpose is to cut hair) is the guiding force behind its design.

Dieter Rams 10 Principles of Good Design | Hacker Noon
The engineering design process is a common series of steps that engineers use in creating functional products and processes. The process is highly iterative - parts of the process often need to be repeated many times before another can be entered - though the part(s) that get iterated and the number of such cycles in any given project may vary. It is a decision making process (often iterative ...
