Perpecahan umat Islam berlaku sejak lebih 700 tahun yang lampau. Ahli Sunnah Waljamaah, Syiah, Khawarij dan sebagainya muncul pada zaman itu. Semuanya didakwa berpunca daripada kelemahan pemerintahan Khalifah Uthman berbanding Khalifah Abu Bakar dan Khalifah Umar yang menyebabkan beliau dibunuh.

Perlantikan Saidina Ali sebagai khalifah bertambah kritikal apabila berlaku konflik antara pengikut Saidina Ali dengan pengikut Muawwiyah dan diikuti perang antara kedua belah pihak dan perang dengan Saidatina Aishah. Pertelingkahan antara sahabat turut mengheret umat Islam dalam pertelingkahan pandangan pada zaman ini.

This is the story of the legendary Muhammad Al Fateh, following him from his childhood and how he was raised by his father to become a Caliph of Islam, through to his appointment

as the Caliph of the Ottoman Empire at the tender age of 19 and subsequent rule. Without Constantinople under its jurisdiction, the Ottoman Empire was incomplete. And so, Sultan Muhammad AlFateh set out to conquer it. Al Fateh was not the first person to attempt conquering Constantinople. Many warriors and caliphs of Islam before him had tried in vain. Learning from their past failures, Al-Fateh carefully assembled and equipped his army. Finally, after an epic battle, Constantinople was conquered. Al Fateh changed the name of the city to Istanbul. At his peak, Al Fateh was the ruler of 25 countries. In the end, he was poisoned and killed by his enemies. Yet, the Ottoman Empire and legacy he left behind stayed standing strong.

“A delightfully original take on...the prospects for liberal democracy in the broader Islamic Middle East.”—Matthew Kaminski, Wall Street Journal As the Arab Spring threatens to give way to authoritarianism in Egypt and reports from Afghanistan detail widespread violence against U.S. troops and women, news from the Muslim world raises the question: Is Islam incompatible with freedom? In Islam without Extremes, Turkish columnist Mustafa Akyol answers this question by revealing the little-understood roots of political Islam, which originally included both rationalist,

flexible strains and more dogmatic, rigid ones. Though the rigid traditionalists won out, Akyol points to a flourishing of liberalism in the nineteenth-century Ottoman Empire and the unique “Islam liberal synthesis” in present-day Turkey. As he powerfully asserts, only by accepting a secular state can Islamic societies thrive. Islam without Extremes offers a desperately needed intellectual basis for the reconcilability of Islam and liberty.

The author of Strong Fathers, Strong Daughters counsels mothers struggling with anxiety, low self-esteem and other common issues on how to embrace more positive habits, using inspirational stories and specific action plans based on living simply and rebalancing.

It was a time when the Umayyad Empire was aggressively expanding their jurisdiction. Finally, they reached the borders of Africa and Europe – a border separated by the narrow strip of a strait. The first commander to cross these straits and set foot on European soil was none other than Tariq ibn Ziyad. A brave and formidable warrior, Tariq was a smart strategist. He strategically took of advantage of the time the Christian rulers of Andalusia were engulfed in a civil war to attack and ultimately defeat them. Hence, the straits that he crossed was honorably named after him, as Jabal Tariq or Gibraltar. After the Andalusian soil was conquered, Tariq advanced towards Paris but was annihilated at the mountains of the Alps. Tariq was also forced to retreat because the Caliphs were

worried they would lose contact with him. From then on forth, Andalusia became one of Europe's shining stars amidst the dark ages.
