The key difference is this: Adobe Lightroom Classic CC is the offline version, i.e. the one you use on your computer.. Lightroom CC (mobile) is the online version, i.e. the one you can also use on your phone and tablet. When you subscribe to one of the Adobe Creative Cloud plans that include Lightroom, you download both versions of Lightroom to your computer.

When the world saw the very first photographs, the idea of being able to capture the world as we see it took off rapidly. In a relatively short period of time, film photography evolved from black and white to color photography. From there, it made motion pictures possible, allowing us to see the world from our couches at home.

Setting up my new Z5 and I'm a bit confused by the silent shooting option. I hop between the electronic shutter and regular shutter quite a bit during a wedding day so on my old Sony a7RII (and III) I had that toggle assigned to a function button. Oddly, Silent Photography doesn't appear under the options for either of the Fn buttons.
