A prize-winning international classic, first published in English in 1993, now with a new foreword by William Boyd.

The "water engine" is an invention unfortunately invented many times. Hydrogen from water is very abundant, renewable and can be used in both energy poor and rich countries. Crude oil and natural gas are limited energy resources. But there are many people who think that certain promising technologies have been suppressed by various political or economic powers, usually with the purpose of protecting their investments and interests and, at the already more absurd extremes of the conspiracy illogical, for sinister motivations of much greater scope. In this new work, the versatile composer and writer Van Jaag, accompanies us on an exciting journey through the history of this unknown invention and its invented inventors.

The second book of Shaftal. The country has a ruler again, Karis, a woman who can heal the war-torn land and expel the invaders. But she lives in obscurity with her fractious found family. With war and disease spreading, Karis must act. And when Karis acts, the very stones of the earth sit up and take notice.

Izzie is cool, bright and sassy. And when she meets the gorgeous Mark, she's on a real high. He's divine. And he likes her! But why doesn't he call when he says he will? When Izzie loses her perspective and her sense of fun, best friends Lucy and Nesta try to give her a reality check. But there are some things you'd rather not hear... The second book in the highly successful MATES, DATES series that's sold over 3 million copies worldwide.

Do you have what it takes to succeed in your career? The secret of success is not what they taught you in school. What matters most is not IQ, not a business school degree, not even technical know-how or years of expertise. The single most important factor in job performance and advancement is emotional intelligence. Emotional intelligence is actually a set of skills that anyone can acquire, and in this practical guide, Daniel Goleman identifies them, explains their importance, and shows how they can be fostered. For leaders, emotional intelligence is almost 90 percent of what sets stars apart from the mediocre. As Goleman documents, it's the essential ingredient for reaching and staying at the top in any field, even in high-tech careers. And organizations that learn to operate in emotionally intelligent ways are the companies that will remain vital and dynamic in the competitive marketplace of today and the future.

Analyzes the principles of stock selection and various approaches to investing, and compares the patterns and behavior of specific securities under diverse economic conditions

For students of design, professional product designers, and anyone interested in design equally indispensable: the fully revised and updated edition of the reference work on product design. The book traces the history of product design and its current developments, and presents the most important principles of design theory and methodology, looking in particular at the communicative function of products and highlighting aspects such as corporate and service design, design management, strategic design, interface/interaction design and human design.. From the content: Design and history; The Bauhaus; The Ulm School of Design; The Example of Braun; The Art of Design Design and Globalization Design and Methodology; Epistemological Methods in Design Design and Theory; Aspects of the Disciplinary Design Theory Design and its Context; From Corporate Design to Service Design Product Language and Product Semiotics Architecture and Design Design and Society Design and Technological Progress

A man and a woman meet in Lisbon and fall in love. City of Ulysses is their story, and the city's love story besides. It is a story that leads readers down multiple paths, through myth and history, reality and fantasy, literature and the visual arts, the past and the present, male and female relations, the crisis of civilisation and the need to reimagine the world.
