Biol 230 Laboratory Manual - The Grapes of Staph - Table ...  
A microbiology laboratory, or lab, is the primary place that a  
working microbiologist not in the field can be found. It is in the lab  
that most of the testing, culturing, and research that they do occurs.  
This location contains the supplies and equipment needed for these  
activities, as well as provide an extremely clean, and sterile place to  
work.
