Bringing together the reflections of an architectural theorist and a philosopher, this book encourages philosophers and architects, scholars and designers alike, to reconsider what they do as well as what they can do in the face of challenging times. It does so by exploring the notion that architecture and design can (and possibly should), in their own right, make for a distinctive form of ...

Introduction. 'Prospects for an Ethics of Self-Cultivation' is a two-year research project investigating the revival of ethical self-cultivation within the European philosophical tradition. The project will host two international conferences and workshops. The first, entitled 'Hellenistic Ethics from Nietzsche to Foucault', took place at the University of Warwick, UK in September 2014.
