original works of sociology's key thinkers accompanied by an analytical framework that discusses the lives, ideas, and historical circumstances of each theorist. This unique format enables students to examine, compare, and contrast each theorist's major themes and concepts. In the Fourth Edition of this bestseller, examples from contemporary life and a rich variety of updated pedagogical tools (tables, figures, discussion questions, and photographs) come together to illuminate complex ideas for today's readers. Attention Instructors! Free digital resources are included with this text. Learn more.

The Oxford History of the British Empire is a major

new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. Volume I explores the origins of empire. It shows how and why England, and later Britain, became involved with transoceanic navigation, trade, and settlement during the sixteenth and seventeenth centuries. Leading historians illustrate the interconnections between developments in Europe and overseas and offer specialist studies on every part of the world that was substantially affected by British colonial activity.

Basic Swedish: A Grammar and Workbook combines an accessible basic reference grammar and related exercises in one volume, and covers most of the topics that students might expect to deal with in their first year of learning Swedish. Each of the 25 units discusses one or more grammar topics, with examples that are subsequently practised in the exercises that follow. The book introduces the contemporary language against a backdrop of Swedish culture, society, geography, customs and history. Each unit ends with a cultural text that outlines an aspect of Swedish culture and exemplifies and consolidates the grammar topic examined in the unit. Features include: clear grammatical explanations with examples in Swedish and
