– Eleven is a terrifying age, she says. I remember nothing before I was eleven, but then there it was, all colour and horror. What a number, she says, what a show. Then her face slips somewhere else for a moment, as if she has dipped beneath the surface of a lake. We do not discuss the specific fears of raising a girl-child.

In all capital letters, the word Kabah is etched onto its surface. On the ground, scarlet petals from a nearby tree blanket the fine gravel still damp from the morning rain.

Kabah poses question: What lies beneath | Ledger ...

The closer to the surface a cave is, the higher chance it has for collapse. Missouri's caves have had various uses for animals and humans from pre-historic times as shelters to the present day as places for storage and recreation. There are even twenty-eight caves under the city of St. Louis itself (Unklesbay and Vineyard 1992). Springs

A well is an excavation or structure created in the ground by digging, driving, or drilling to access liquid resources, usually water. The oldest and most common kind of well is a water well, to access groundwater in underground aquifers. The well water is drawn up by a pump, or using containers, such as buckets, that are raised mechanically or by hand.. Water can also be injected back into the ...

Well - Wikipedia

Intractable plantar keratosis (IPK) is a discrete, focused callus, usually about 1 cm, on the plantar aspect of the forefoot. Typically, IPKs occur beneath one or more lateral metatarsal heads or under another area of pressure.

The Circle line is a London Underground line in a spiralling shape, running from Hammersmith in the west to Edgware Road and then looping around central London back to Edgware Road. The railway is below ground in the central section and on the loop east of Paddington. Unlike London's deep-level lines, the Circle line tunnels are just below the surface and are of similar size to those on British ...

Circle line (London Underground) - Wikipedia

As coastal development continues, Floridians often don't think about their impacts on the hidden meadows beneath the sea's surface. "We build bridges, we have tall buildings and beautiful apartments," said Tomasko, "but we haven't maintained a wastewater infrastructure commensurate with the population requirements."
