Library Juice Concentrate is a compilation of the best of Library Juice, an e-zine published by Rory Litwin between 1998 and 2005 that dealt with foundational questions of librarianship during a period of rapid change. Library Juice served as the record for the "library left" during this period, including its veterans and newcomers, while at the same time offering original reflections on traditional questions. The book includes essays and other artifacts that investigate professional neutrality, intellectual freedom, alternative literature, the social effects of technological change, the cultural identity of the librarian, "anarchist librarianship," the Cuba debate, Google's scanning project, subject heading reform, and other issues. The aim of the essays in Library Juice Concentrate is to provoke original thought and to encourage newcomers in the field to participate in professional discourse with confidence and with attention to the intellectual and political struggles of the past.

An exceptionally beautiful and hospitable country, Oman is a researchers delight, with archives and manuscripts, archaeological and ethno-archaeological attractions ranging from pre-Islamic Arabia to the present, and modern multi-tribal communities. Located on the southern edge of the Persian Gulf, where the Arabian Sea and the Indian Ocean meet and control the entrance to the Persian Gulf, it has stood at a commercial and cultural crossroads for centuries. But with commercial sea routes also to Africa and Asia, it is simultaneously a contemporary state that combines modernity and tradition, religion and multiculturalism -- a place where the present meets the past without being bound by it. It is, thus, no accident that Ibadis have played and continue to play an important role in the history of Muslim theology and its political theory, a role that only in recent years has begun to be acknowledged in international academic circles. This volume presents the proceedings of the first international conference dedicated to Ibadism and the Sultanate of Oman, which was held at Aristotle University of Thessaloniki in November 2009. The goal of the conference was to introduce Ibadism and Ibadi Studies to the worldwide research community and, indeed, it has served as the springboard for other conferences and the founding of academic groups dedicated to Ibadism and the Sultanate of Oman. In the first part of this volume, we are guided through Ibadi history, theology, and jurisprudence while the second part opens the reader to a broad vista on the dialectics between religion, society, and politics within contemporary Ibadi communities and especially that of Oman. By introducing Ibadism to the broader academic community, we hope to contribute to the mutual understanding and rapprochement of peoples, cultures, and religions. In this regard, each paper in the present volume has lasting value. (Luxury Edition)

1001 Quotations To Inspire You Before You Die is full of smart remarks - not just sassy one-liners (although there are plenty of those), but also more considered, philosophical epigrams that make us pause and reflect on a range of profound topics. Each quotation is accompanied by an insightful account of its meaning and the historical context in which it was first uttered or written. Some famous quotations are straightforward, but many need contextualising - it's often not exactly what was said, but who said it, and in what context, that is more important. Many oft-quoted remarks open up whole new worlds of thought and interpretation. What, for example, did Voltaire mean when he wrote 'If God did not exist, it would be necessary to invent him'? - was he hinting at his own atheism (unlikely, given the age in which he lived) or making a more subtle point about the difficulty of apprehending the Almighty? This book looks into these and a host of other such questions, and takes the reader from the source material into illuminating discussions of its wider significance. We all love quotations - we use them to make our points, to plead our cases and to justify our opinions, as well as to honour, glorify, motivate, incite, besmirch, bewitch and beguile. 1001 Quotations To Inspire You Before You Die will help you do all that and more.
