Suzuki was the first company to offer a kei car in 1955. One interesting departure from other Kei cars was the Fronte Coupé introduced in September 1971. It was a 2+2 (or a strict 2-seater) Giugiaro-designed mini GT based on the rear-engine Suzuki Fronte, measuring a mere 2995 mm.It used a 359 cc two-stroke engine developing 31, 34 or 37 PS (35 in later models) depending on equipment level.

Suzuki Cervo—Wikipedia

The Jimny 1000, sold as the Suzuki SJ410 in most export markets, used the F10A - a larger 1 litre version of the LJ's 0.8 liter four-cylinder engine. This engine produced 45 hp (34 kW) and it had a top speed of 68 mph (109 km/h).
