The aim of this publication is to assist teacher educators and language teachers in shifting the focus from linguistic competence to intercultural communicative competence. The printed booklet of the present guide contains the introductions to: definitions of key terms in intercultural communication; planning and designing intercultural communication courses and workshops; teaching/training methods and materials; and assessing intercultural communicative competence. The materials on the accompanying CD-ROM include: the theoretical background to teaching language and culture; detailed workshop and course planning guidelines; teaching materials and activities based on literature, films and songs; guidelines and tasks for assessment and descriptors of competences; intercultural communication workshop reports; and our research articles about the intercultural dimension of foreign language teaching (FIT).--Publisher's description.

Telecollaboration, or online intercultural exchange, has become widely recognised as an effective way to promote the development of intercultural communicative competence and language skills. However, the study and implementation of new 2.0 environments such as wikis, Skype, virtual worlds and gaming for telecollaboration is still in its infancy. How can these multilingual, multimodal, collaborative environments be used to promote language and intercultural learning? What are the implications for teachers and learners and what new literacies are required? Do they offer an added-value? This book seeks to answer these questions and many more by bringing together the experience and expertise of researchers and practitioners alike. The authors offer critical stances, new frameworks and practical case studies to help the reader 'navigate' the world of Telecollaboration 2.0.

This book explores ways to prepare teachers to teach English as an International Language (EIL) and provides theoretically-grounded models for EIL-informed teacher education. The volume includes two chapters that present a theoretical approach and principles in EIL teacher education, followed by a collection of descriptions of field-tested teacher education programs, courses, units in a course, and activities from diverse geographical and institutional contexts, which together demonstrate a variety of possible approaches to preparing teachers to teach EIL. The book helps create a space for the exploration of EIL teacher education that cuts across English as a Lingua Franca, World Englishes and other relevant scholarly communities.

An understanding of sociocultural context is crucial in second language learning – yet developing this awareness often poses a real challenge to the typical language learner. This book is a practical language teachers' guide that focuses on how to teach socially and culturally appropriate language for effective communication. Moving beyond a purely theoretical approach to pragmatics, the volume offers practical advice to teachers, with hands-on classroom tasks included in every chapter. Readers will be able to:

- Identify possible causes of learner errors and choices in cross-cultural communication
- Understand second language acquisition theories that support their classroom practices
- Develop a pragmatics-focused instructional component, classroom-based assessments, and curricula
- Help learners to become more strategic about their learning and performance of speech acts
- Incorporate

technology into their approach to teaching pragmatics This book aims to close the gap between what research in pragmatics has found and how language is generally taught today. It will be of interest to all language teachers, graduate students in language teaching and linguistics, teacher educators, and developers of materials for teaching language.

Multicultural Education of Children and Adolescents explores the foundations of diversity through cultural portraits of young people from a variety of backgrounds, and provides practical strategies for shaping and implementing a multicultural curriculum. In Part I, the authors introduce multicultural education as a concept and document the increasing cultural diversity of the United States. The text describes, in Part II, various cultural groups--including African, American Indian, and Hispanic cultures--to help pre-service teachers better understand the backgrounds of diverse learners. Part III focuses on topics that educators should consider when planning and implementing programs that teach acceptance and respect for cultural diversity. Through this series of applied chapters, teacher candidates will learn to use the most effective instructional practices with diverse learners, and to work successfully with families, school personnel, and administrators to implement a multicultural program. Content and features new to the sixth edition include the following Every chapter opens with a real-life story that introduces the subject matter by showing the ideas in action. Points to Ponder boxes urge readers to reflect more deeply on information they have just read. Additional Case Studies with accompanying Questions for Discussion in all chapters enable nuanced consideration of the crucial differences between culturally specific learning styles. Increased emphasis on Social Justice and White Privilege, including its effects on all people. Chapter 13 has been significantly revised to include increased and updated information on sexual orientation, including transgender students. Chapters in Part II now feature further expanded sections on socioeconomic status and conditions of each ethnic group.

Intercultural Competence in Higher Education features the work of scholars and international education practitioners in understanding the learning outcomes of internationalization, moving beyond rhetoric to concrete practice around the world. Devoted exclusively to exploring the central learning outcomes of internationalization efforts, this edited volume contains a refreshing combination of chapters and case studies from interdisciplinary and cross-cultural contributors, including: cutting-edge issues within intercultural competence development, such as intersectionality, mapping intercultural competence, and assessment; the role of higher education in developing intercultural competence for peacebuilding in the aftermath of violent conflict; facilitating intercultural competence through international student internships; interdisciplinary and cross-cultural contributions from over 19 countries including Japan, Russia, Serbia, South Africa, and Vietnam; the latest research and thinking on global, intercultural, and international learning outcomes, with a unique emphasis on newer voices. Intercultural competence has become an essential element in international as well as domestic education. This text provides the latest thinking and research within the context of internationalization, presents practical case studies on how to integrate this into the preparation of global-ready students and will be of interest to postgraduate students, international education administrators, and practitioners, as well as scholars and researchers in a variety of disciplines who have an interest in intercultural and global competence.
