with the emphasis on how this adds to the message of the film. The heart of this book

examines how films communicate, how they are profoundly meaningful and worthy of serious thought and critical engagement.

Humanity (and thus the claim to moral consideration) is

reduced to the possession of a soul.

Proper humans are souls that have bodies; clones simply are their bodies.

The soul is a capacity for creative imagination, and this allows for the production of art. But the understanding of art
