This is a very good book about a one of the iconic parts of Roman society and what it shows is how deeply parts of Roman Britain were Roman in their civil life. It also shows the fragility of that way of life as the various amphitheatres were gradually abandoned or put to other uses as Britannia came under increasing barbarian attack.

Chester Amphitheatre is a Roman amphitheatre in Chester, Cheshire. The site is managed by English Heritage; it is designated as a Grade I listed building, and a scheduled monument. The ruins currently exposed are those of a large stone amphitheatre, similar to those found in Continental Europe, and although it was long believed that a smaller wooden amphitheatre existed on the site beforehand, excavations since 1999 have shown that the wooden grillage is the base of the seating. Today, only the

The remains of at least 230 Roman amphitheatres have been found widely scattered around the area of the Roman Empire. These are large, circular or oval open-air venues with raised 360 degree seating and not to be confused with the more common theatres, which are semicircular structures. There are, however, a number of buildings that have had a combined use as both theatre and amphitheatre, particularly in western Europe.

Situated outside the Roman town of Corinium (Modern Cirencester) lie the remains of one of the largest amphitheatres known from Roman Britain. The amphitheatre was constructed in the first half of the 2nd century AD on the site of an existing Roman quarry. The cavea or seating bank was probably retained using timber and dry-stone wall.
