Third Generation R & D.: Managing the Link to Corporate ...
The third generation of R&D technology managers and top management work together as a partnership to selected and evaluate projects. The goals of the organization are aligned with the R&D activities. Projects are organized in to portfolios in order to manage risk and maximize profits. When companies employ a third generation philosophy they are more competitive, more effective with a smaller investment in R&D activities.

Third Generation R & D: Managing the Link to Corporate ...
Among the more popularized ones are Arthur D. Little 's Third generation R&D management, the Development funnel, the Phase – gate model All these models are concerned with improving R&D performance and result productivity, managing R&D as a process, and providing the R&D function with an environment in which the inherent technological and market uncertainties can be managed.
